

# ancillary equipment

## SATA Dozen Boy

- Remove lids from tin 0.5 L to 5 L, with height up to 360 mm.

Description	Part No.
SATA Dozen Boy	77 11 170 049

## spray booth gun holder

- Holds any gravity spray-gun.
- Plastic covered to prevent scratching spray guns.
- To be fitted on the booth cabin wall.
- Wall mounted.

Description	Part No.
Spray gun booth cabin holder	77 11 171 362

# ancillary equipment

## spray gun holder

---

- Holds any gravity spray gun.
- Wall mountable.

Description	Part No.
Spray gun holder	77 11 171 305

## SATA clean

---

- Wet holder for 3 gravity or suction spray guns.
- Avoids paint drying in nozzles between work.

Description	Part No.
SATA Clean	77 11 170 048

# ancillary equipment

## SATA spray gun micrometer

- Basic aim pressure restrictor.

Description	Part No.
SATA spray gun micrometer	77 11 170 047

## universal spray gun manometer

- Readable aim pressure restrictor.

Description	Part No.
Universal paint manometer	77 01 408 352

## viscosity cup

- Allows viscosity control of base-tint and lacquer.
- AFNOR N°4.

Description	Part No.
Viscosity cup	77 11 223 536

## chronometer

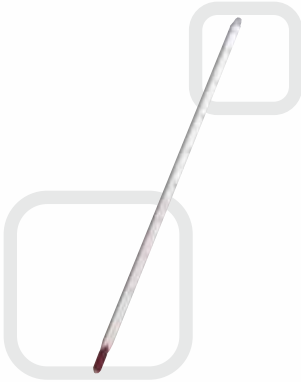

- To measure precisely:
  - Viscosity.
  - Flash times.
  - Curing times.

Description	Part No.
Chronometer	77 11 171 456

# ancillary equipment/ cabin equipment

## thermometer

- To measure temperature.

Description	Part No.
Thermometer	77 11 222 636
Thermo-hygrometer	77 01 383 498

## SATA dry jet

- Air movement system to assist the flash off of waterborne paints.
- Performance:
  - Air consumption: 350 L/mm at 58-65 PSI.
  - Weight: 520 g.
  - Working distance: 0.3-0.5 m.

Description	Part No.
SATA Dry Jet complete system	77 11 171 235
SATA Dry Jet airgun head	77 11 171 236
SATA Dry Jet structure	77 11 171 237
SATA Dry jet filter (3 filters)	77 11 171 234
