Rock-M small cutting disc

- For fast removal tack welds & finishing of spot welds after drilling.
- Use in conjunction with an end grinder.
- Designed for use in small or awkward areas to access.
- Long life product.

Description	Ø	±	↳	Packaging	Part No.
Rock - M	76	3	10	25	77 11 218 237
Rock - M	76	6	10	MD 10	77 11 218 238

spot weld drills

- Easy to use & fit.
- Standard spot weld drill bits for use in conjunction with electric / compressed air drills offering Ø6-8mm bit capacity.
- Mini spot weld drill bits for use with the spot weld removal chuck.
- Long life product.

Description	Ø	Packaging	Part No.
Spot weld drill	6	5	77 11 172 742
Spot weld drill	8	5	77 11 172 754
Mini drill	8	5	77 11 218 058

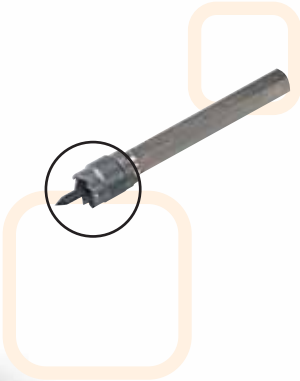

SFERIS spot weld cutters

- Removes spot welds in difficult to access areas at 30-45° drill angle.
- SFERIS spot weld drill bits for use in conjunction with electric / compressed air drills offering Ø6-8mm bit capacity.
- Long life product.

Description	Ø	Packaging	Part No.
Sferis	10	1	77 11 218 241
Sferis	16	1	77 11 218 242

spot weld cutter

- Easy to use.
- Reversible & changeable cutting head gives economical performance.
- Long life product.
