

silis - D FIB finishing disc

- Designed for fast cleaning of surface residues from the welding operation.
- For use in conjunction with angle grinders offering 115-178mm disc capacity with a DFB backing pad.
- Long life product.

| Description | ∅ | Grit | ↳↳ | Packaging | Part No. |
|---------------|-----|------|----|-----------|---------------|
| Silis - D FIB | 115 | 36 | 22 | 25 | 77 11 218 280 |
| Silis - D FIB | 178 | 36 | 22 | 25 | 77 11 218 281 |

rock - M finishing wheel

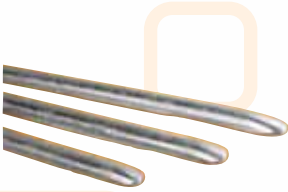

- Designed for heavy duty cleaning of surface residues from the welding operation.
- For use in conjunction with angle grinders offering 100-115mm disc capacity.
- Long life product.

| Description | ∅ | ± | ↳↳ | Packaging | Part No. |
|-------------|-----|---|----|-----------|---------------|
| Rock - M | 100 | 6 | 16 | MD 5 | 77 11 218 274 |
| Rock - M | 115 | 6 | 22 | MD 5 | 77 11 218 275 |
| Rock - M | 115 | 4 | 22 | MD 5 | 77 11 218 276 |

surface finishing

ZN33 leading bar

- For high quality metal finishing.
- Requires less heat to reach molten state as product composition 67% lead.

| Description | Weight | Packaging | Part No. |
|------------------|--------|-----------|---------------|
| ZN33 Leading bar | 1 kg | 1 | 77 11 218 282 |

Flux

- Easy to use.
- Ensures adhesion between substrates during the soldering / brazing operations.
- Brush application.

| Description | Weight | Packaging | Part No. |
|-------------|--------|-----------|---------------|
| Flux | 500 g | 1 | 77 11 218 283 |
